

CLIENT: Coventry City Council

PROJECT BRIEF:

Located in Coventry City Centre, the Civic Centre stands at 15 storeys high and houses local authority business premises.

Total Access UK Ltd was requested to undertake a full tactile examination to ascertain condition of the building. During the examination, which was carried out using roped access techniques, significant damage was identified, and the remedial concrete repair work was carried out accordingly.

Total Access UK Ltd specialises in safe working in areas of limited access; much of our inspection work is undertaken either utilising roped access or confined spaces entry techniques.
